

# DO YOU HAVE A *Primary Care Provider*

**Receive a prize just for having or getting a Primary Care Provider.**

Your Primary Care Provider (PCP) is the best place to start when you need any type of medical care. They can take care of your preventive care, diagnose disease and illnesses, and help you find the right specialists when you need them. They'll help you navigate the health care system so you can concentrate on your health. But in addition to keeping you healthy and helping to save time and energy, it is someone who gets to know you as a person, not just the numbers on your chart.
